

# WHO ARE WE?

## John Woodley

Since 1984, John has matriculated through the technology sector from technician, programmer, and engineer through to technology executive. He has always been on the leading edge of technology whether leading and managing major projects, developing applications, or designing global infrastructures for customers.

Under John's leadership, his company Trusted Technologies has grown from ground zero to a multimillion-dollar technology services organization. During this time, John has developed extensive relationships in both the commercial and the governmental sectors of technology.

John holds a Bachelors of Business Administration degree from Nicholls State University. He is currently serving a Governor's appointment to the Elections Board.

As a parent of two current high school students and a recent college graduate, John has been highly involved in his local community as a financial donor to local programs. He is a former Recreation Council President and continues to serve on the local Recreation Council as well as coaching HS soccer.
